CHALENG 2004 Survey: VAMC Asheville, NC - 637

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 118
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 47

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

118 (point-in-time estimate of homeless veterans in service area)

X 45% (percentage of veterans served who indicate being homeless for a year or more at intake) X 88% (percentage of veterans served who had a mental health or substance abuse disorder) = 47 (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

CHALENG 2004 Survey: VAMC Durham, NC - 558

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 300
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 115

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

300 (point-in-time estimate of homeless veterans in service area) **X 43%** (percentage of veterans served who indicate being homeless for a year or more at intake) **X 90%** (percentage of veterans served who had a mental health or substance abuse disorder) = **115** (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

1. Housing Inventory

Housing Inventory	Beds	# of additional beds site could use
Emergency Beds	90	20
Transitional Housing Beds	40	7
Permanent Housing Beds	25	40

2. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2004: 10

Transitional living facility	Our VA homeless program will continue to expand the number of available transitional beds via the VA Grant and Per Diem Program. The special focus of beds will be to provide housing for homeless females.
Help with finding a job or getting employment	The local office of the North Carolina Employment Commission has a representative to provide employment services each week at the Durham VA Medical Center. Homeless veterans are referred to him for assistance with employment needs. While the Durham VA Medical Center has an Incentive Therapy Program and vets are referred to that program, a Compensated Work Therapy Program would prepare veterans for full time employment. However, the Medical Center does not have such a program at this time. Our goals will be to assist in creation of one.
Medical Services	The VA has opened medical clinics in Durham and Raleigh which has reduced demand for medical care at the main facility. The homeless program staff will continue to seek agreements with health care providers for the homeless to provide care.

CHALENG 2004 Survey: VAMC Fayetteville, NC - 565

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 75
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 21

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

75 (point-in-time estimate of homeless veterans in service area) **X 33%** (percentage of veterans served who indicate being homeless for a year or more at intake) **X 84%** (percentage of veterans served who had a mental health or substance abuse disorder) = **21** (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

1. Housing Inventory

Housing Inventory	Beds	# of additional beds site could use
Emergency Beds	100	10
Transitional Housing Beds	26	21
Permanent Housing Beds	12	0

2. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2004: 0

Long-term, permanent housing	We want to increase the number of beds in this area.
Women's Health	Provide education to homeless female veterans through women clinics
Care	and women veteran coordinator.
Job Training	Continue to work with Employment Commission to prepare veterans for employment.

Number of Participant Surveys: 15 Non-VA staff Participants: 100% Homeless/Formerly Homeless: 0%

CHALENG 2004 Survey: VAMC Hampton, VA - 590

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 325
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 71

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

325 (point-in-time estimate of homeless veterans in service area)
X 25% (percentage of veterans served who indicate being homeless for a year or more at intake)
X 88% (percentage of veterans served who had a mental health or substance abuse disorder) = 71 (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

1. Housing Inventory

Housing Inventory	Beds	# of additional beds site could use

CHALENG 2004 Survey: VAMC Richmond, VA - 652

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 8
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 1

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

8 (point-in-time estimate of homeless veterans in service area)
X 17% (percentage of veterans served who indicate being homeless for a year or more at intake)
X 87% (percentage of veterans served who had a mental health or substance abuse disorder) = 1 (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

Emergency Beds	21	40
Transitional Housing Beds	46	25
Permanent Housing Beds	10	20

2. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2004: $\,0\,$

Detoxification from substances	VA currently collaborating with community agencies regarding a contractual agreement to provide drug detoxification to at least six veterans. Hospital does not provide detox unless veterans is in a state of D.T.'s.
Child Care	VA currently collaborating with community Grant and Per Diem hopeful in developing a new transitional program that will provide child care to children under school age.
Immediate shelter	VA and community have developed a new central intake process for finding shelter for homeless veterans and new vets in the community. So far successful.

CHALENG 2004 Survey: VAMC Salem, VA - 658

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 150
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 42

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

150 (point-in-time estimate of homeless veterans in service area) **X 32%** (percentage of veterans served who indicate being homeless for a year or more at intake) **X 86%** (percentage of veterans served who had a mental health or substance abuse disorder) = **42** (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

CHALENG 2004 Survey: VAMC Salisbury, NC - 659

VISN 6

- A. Homeless Veteran Estimates
- 1. Point-in-time estimate of Homeless Veterans (from the CHALENG Point of Contact Survey): 1000
- 2. Point-in-time estimate of Veterans who are Chronically Homeless: 299

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions. Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf)

This veteran chronic homeless estimate is a conservative estimate. The following formula was used to obtain this estimate*:

1000 (point-in-time estimate of homeless veterans in service area)
X 34% (percentage of veterans served who indicate being homeless for a year or more at intake)
X 89% (percentage of veterans served who had a mental health or substance abuse disorder) = 299 (facility veteran chronic homeless estimate).

*Note: point-in-time estimate of homeless veterans in service area comes from CHALENG POC survey. Percentage of veterans 'homeless 1 year or more' and 'mental health or substance abuse disorder' based on FY 2004 homeless veteran intake data provided by the VA Northeast Program Evaluation Center (NEPEC). Percentages are rounded for clarity, so the actual calculated figure may be slightly different.

2. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2004: $\,0\,$

Dental Care	Our VA Healthcare for Homeless Veterans (HCHV) program will continue to work closely with VA Dental Services to increase the number of veterans treated by the clinic with particular emphasis on veterans with compromising medical complications and those at risk for nutritional problems.
Long-term, permanent housing	Several partner agencies in at least three major cities (Charlotte, Greensboro, Winston-Salem) have opened permanent housing programs to address needs of homeless persons. There are plans to increase this
Help Managing Money	programming through HUD grants. North Carolina Coalition for Veterans will be providing quarterly education to provider agencies in cooperation with local government and community providers. Veterans admitted to VA Grant and Per Diem programs will attend money management and credit repair programs.
